WHAT WE DO...

Protecting people and securing property is a critical mission to the success of any industry.

AE helps you develop the most advanced and flexible security solution possible—based on industry best practices—one that is agile enough to respond to the security needs of today

AE started up with the ability to realize how to relate and demonstrate a certain protection or security objective to a Concept & Idea of a System and/or Solution to be implemented and installed.

Now; with our wide variety of Light Current Systems and the technical expertise, we are able to customize designs according to the need and security concept of the objective captured from customers.

We deliver flexibility, scalability and peace of mind with our offered systems and solutions along with our Project Management Methodology in delivering projects

HOW WE DO IT

AE offers complete security solutions across multiple technologies in **Turn-Key Projects** from feasibility study, design, supply, test and installation with after sales support in addition to maintenance services.

WHO WE SERVE

Our Mission is being your sole **Trusted Security Partner** in each Industry we serve

- ✓ EDUCATION
- ✓ HEALTHCARE
- ✓ TRANSPORTATION
- ✓ BUSINESS
- ✓ MANUFACTURING
